

Written 12:41 Korean Standard Time, 02 November, 2019

To Professors Falquet and Metral,

I, Tien-Tso Ning, am currently registered for “Technologies du Web Sémantique” for the Fall Semester. Although I am out of the country and not currently in Geneva from 30 October 2019, to 12 November 2019, I fully intend to work on and complete Project 1 to the best of my abilities working alongside Yi Zhang. I have communicated my attendance and coordinated with Yi in regards to working together on this project. I understand that Project 1 has a presentation component on 6 November 2019, and that I will not be in class for this part of the assignment. However, I have prepared to submit both this written statement in addition to a video-recording of my part of the presentation that I am responsible for, to Yi Zhang in order for him to present as planned during class.

If for any reason that either Professor or the University of Geneva should feel the work I surrender on 6 November 2019 is insufficient, I humbly request to be informed via email regarding the matter.

I hope that this written statement services as an advanced-notice of my absence as well as a second-reminder (as per my email regarding this same issue sent on 28 October 2019).

Thank you,

*Tientso Ning*
